DETAILED ACTION

Response to Amendment

1. Receipt of Applicant's Amendment C, filed July 01, 2004 is acknowledged.

Reasons for Allowance

2. Claims 1-4, 6-20 are allowed, now renumbered as 1-19.
3. The following is a statement of reasons for the indication of allowable subject matter:

The present invention is directed to an HTML file format implemented within a computer system for redirecting an application program to an alternative source file to import an underlying data source associated with the at least one HTML data object into the application program.

Claims 1, 4, 19 identify the uniquely distinct feature of "a redirection flag associated with the at least one HTML data object tag is associated with an HTML wherein when the redirection flag is not disabled, the application program is redirected by the redirection attribute to retrieve the underlying data source from the alternative source file upon selection via the Web page of the at least one HTML data object for import and wherein when the redirection flag is disabled, the HTML data object is imported from the Web page to the application program".

The closest prior art, Moshfeghi et al. (U.S. Patent No. 6,476,833), shows a substantially similar method for redirecting the source of a data object displayed in an

HTML document. However, Moshfeghi et al. fail to anticipate or render the above cited limitations obvious.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
